

In the name of Allah

Application The natural mineral biochar of Kohbanan, Kerman medical

Biochar is a natural mineral compound absorbent that is used for many purposes in the medical field. These uses include the treatment of skin and internal diseases, and even use in the field of aesthetics and effective absorption of toxins

scientific studies

Scientific research has shown that Natural mineral biochar of Kerman mountain can Effective for a variety of medical problems, including treating wounds and skin infections

Skin treatment

Studies have shown that Natural mineral biochar of Kerman mountain can Effective in the treatment of skin diseases as an antiseptic and decontamination agent

Treatment of internal diseases

Kerman natural mineral biochar As a natural mineral absorbent, it is used in the treatment of many internal diseases and improves the general health status of people

Applications

The natural mineral biochar of Kohbanaan, Kerman medical

1 Absorption of toxins and impurities

Kerman natural mineral biochar The porous structure and high absorption properties can be used to remove toxins from the body or purify pharmaceutical products and make the absorption of toxins effective.

2 Digestive health

using _ Kerman natural mineral biochar It is useful in improving the health of the digestive system by absorbing toxins and pathogens and potentially acting as a prebiotic for beneficial bacteria.

3 Drug Delivery

Nanoparticles Kerman natural mineral biochar Due to their porous structure and large surface area, they can be used as a drug delivery system that allows controlled release of drugs.

Treatment of skin diseases with Kerman natural mineral biochar

Advantages

Kerman natural mineral biochar As an effective disinfectant and decontamination agent, it can improve the condition of the skin

Uses

including cases of use The natural mineral biochar of Kohbanan, Kerman Treatment of wounds, skin infections and inflammatory skin diseases

Relief from side effects

using _ Kerman's natural mineral biochar It can reduce the side effects associated with chemical drugs and make the skin heal faster

Treatment of internal diseases with Kerman natural mineral biochar

1

Wide use

Kerman natural mineral biochar It is used as an absorbent of internal toxins and is effective in opening blockages in the digestive system

2

Clinical benefits

In clinical use, natural mineral biochar from Kerman mountain It is effective as an absorption agent to improve the general condition of the body and improve digestive processes

3

Use in medicines

Natural mineral biochar of Kerman mountain can It is used as a natural absorbent for drugs and improves the absorption of drugs and reduces its side effects

using _ The natural mineral biochar of Kohbanan, Kerman The field of aesthetics

Beauty effects

Kerman natural mineral biochar
As a natural and pure absorbent,
it can be effective in improving
skin complications

Skin care products

Including skin care products
with The natural mineral biochar
of Kerman's Kohbanan can be
He mentioned soaps, creams and
face masks that have significant
effects

The boom of the beauty industry

using _ Natural mineral biochar
of Kerman mountain can To be
effective in developing nature-
based beauty products industry
and reducing unstable chemicals

Absorption of toxins: high level Kerman natural mineral biochar and porous structure

Advantages in pharmacy

- 1 level The natural mineral biochar of Kohbanan Kerman and its porous structure can be used to deliver drugs and improve the absorption of drugs in the pharmaceutical industry, as well as to remove toxins from the body.

Medical expenses

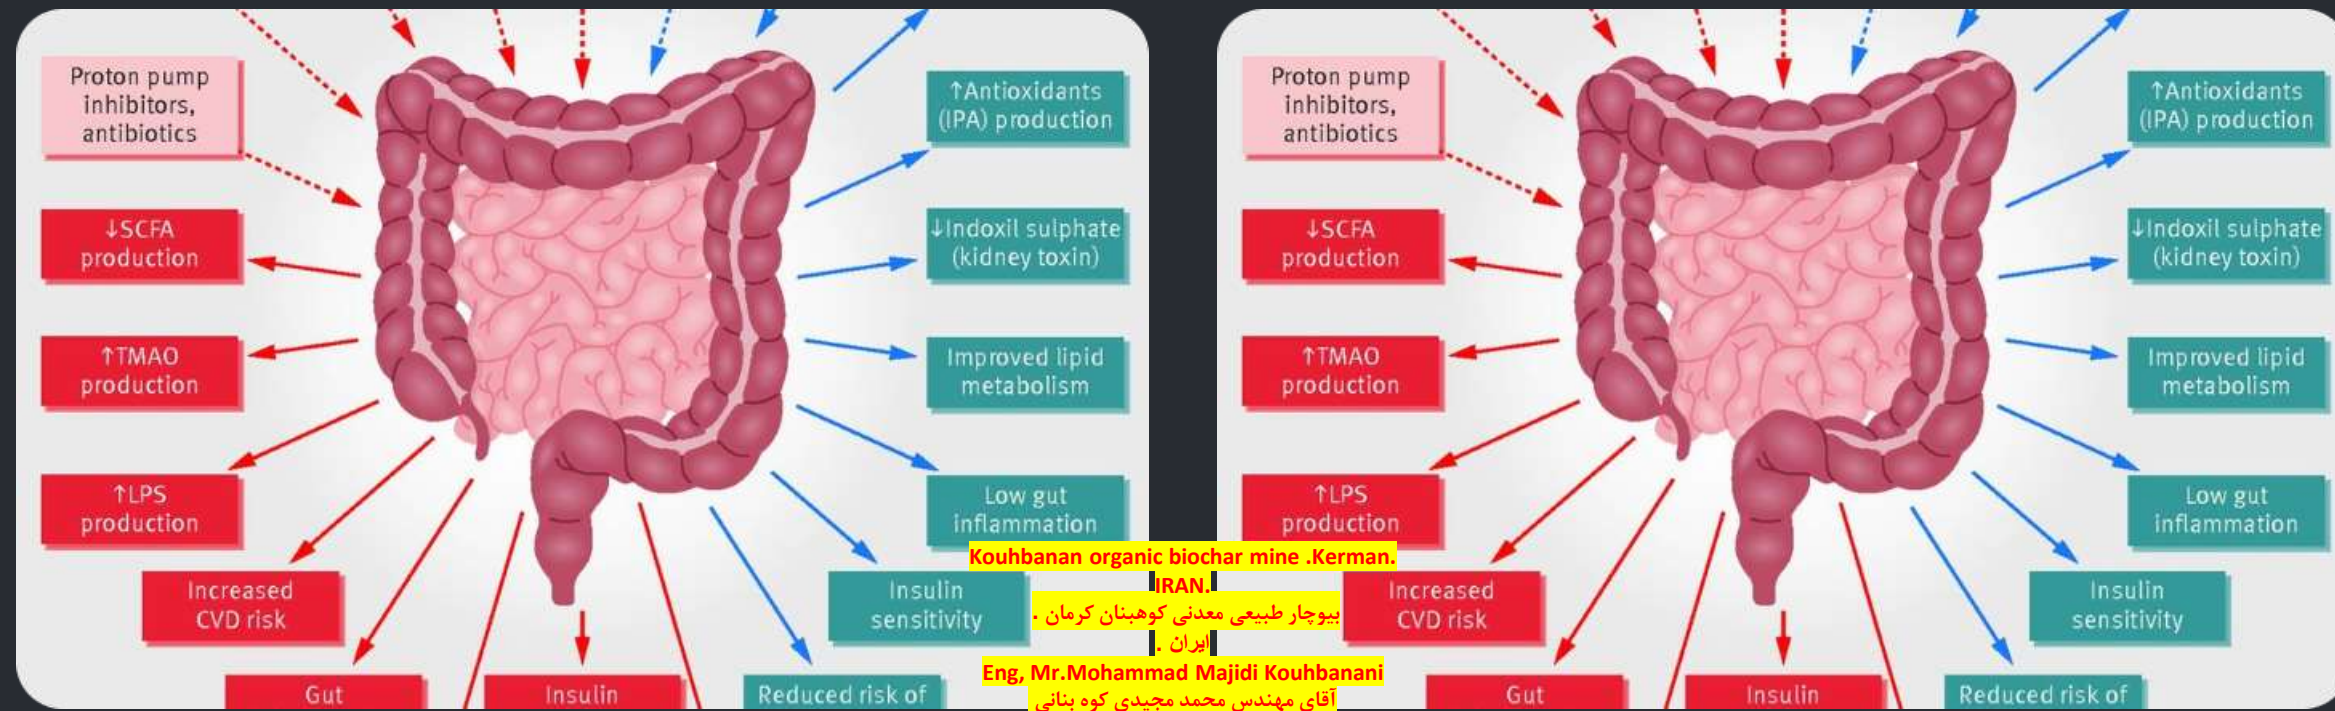

- 2 In the medical industry, including the treatment of wounds and tissue regeneration, the natural mineral biochar of Kohbanan, Kerman It is used as an effective agent to absorb toxins

Therapeutic effects

- 3 Function The natural mineral biochar of Kohbanan, Kerman Absorption of toxins can improve many medical problems related to toxins and pollutants

The natural mineral biochar of Kohbanan, Kerman

Improve the health of the digestive system

Absorption of toxins

Kerman natural mineral biochar Absorption of toxins and pathogens is effective in improving the health of the digestive system and its better functioning

prebiotic

Kerman natural mineral biochar It acts as a prebiotic for beneficial bacteria and helps to maintain the balance and health of the intestines

Delivery Medicine : nanoparticles Kerman natural mineral biochar

Porous structure

Porous structure Natural mineral biochar of Kerman mountain can It allows the controlled release of drugs and improves drug absorption

Impact on the medical industry

Kerman natural mineral biochar Nanoparticle drug delivery system is able to deliver drugs and improve drug absorption in the medical industry

Wound healing and tissue engineering with Kerman natural mineral biochar

1 Wound healing

It has been determined that Kerman natural mineral biochar for Its potential in wound healing and tissue regeneration can be used effectively

2 Tissue Engineering

Porous nature Natural mineral biochar of Kerman mountain can To be used for tissue engineering applications in medical implants and cell regeneration
